

ROBIN HOOD RIDES AGAIN!

Join us as we march to the citadels of international finance to demand that the banks pay us back! In response to public pressure, European governments are implementing a tax on financial speculation instead of continuing cuts to essential social services. **We can and must do the same in the US.** As finance ministers meet from the big national economies known as the G-20, alongside the meetings of the International Monetary Fund (IMF) and World Bank, **WE WILL GREET THEM TO DEMAND A ROBIN HOOD TAX:**

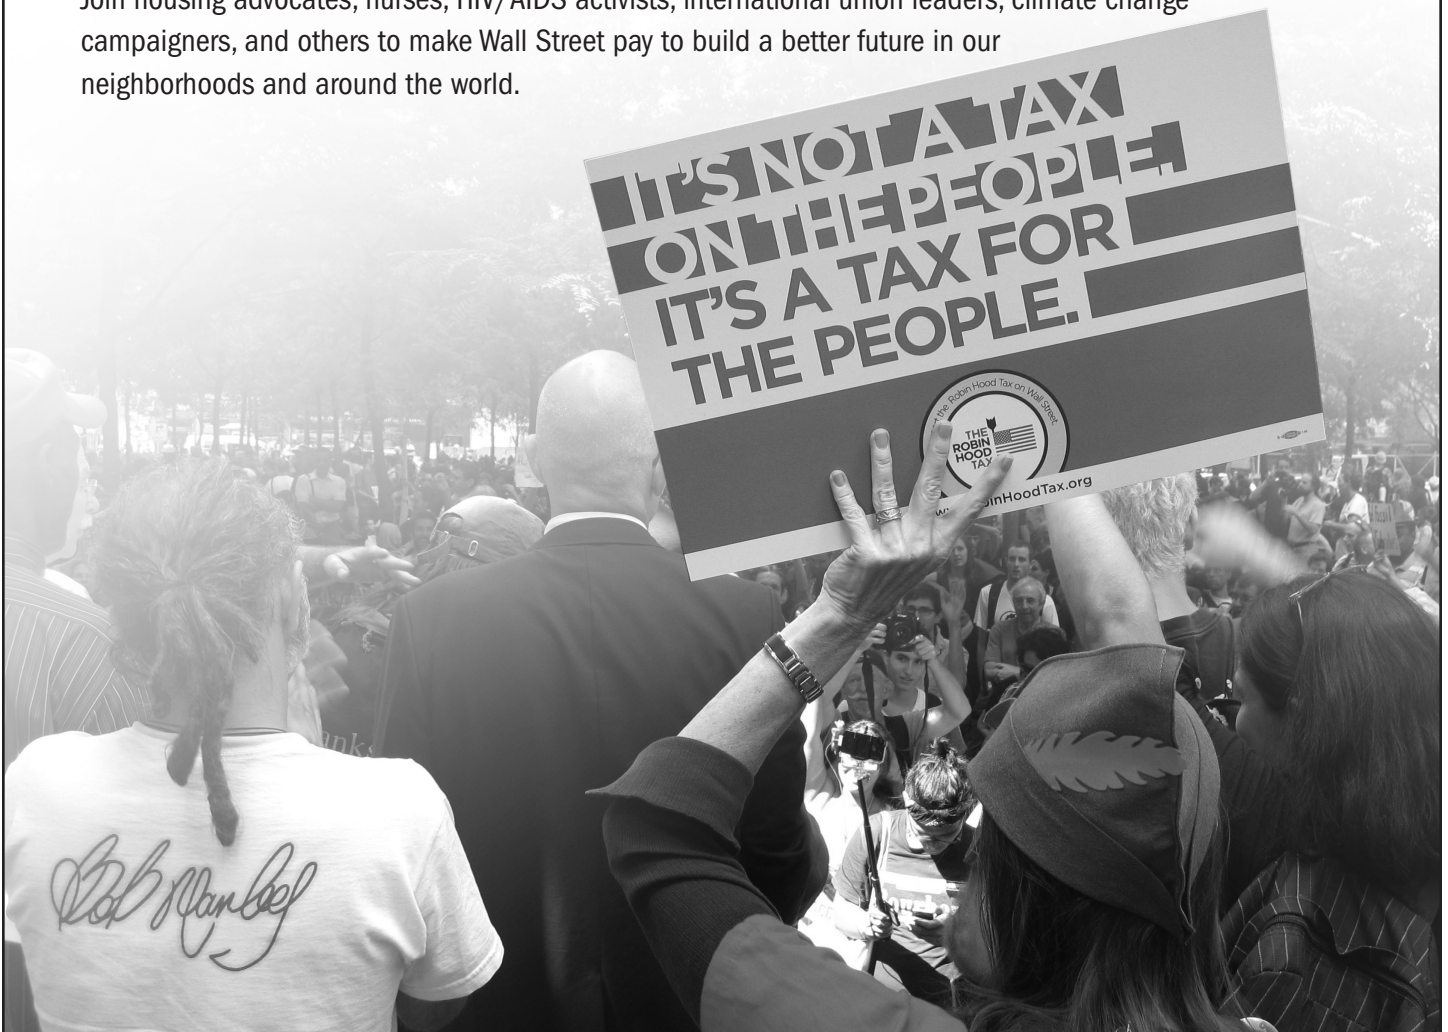

Saturday, April 20
